Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year

Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Embrace the World

Ascendant in Pisces

This year you can be a willow-the-wisp, hinting at meaning but never quite divulging the diaphanous mystery that hides beneath your façade. That allows you to choose your truths and disclose only as much as is necessary or meaningful. It also requires that you know the difference, which could be a little harder, so don't get lost in the part. There's a natural gateway to the unknown, and you seem to be standing in front of it, but that's only as others see you. The real you is for you to know and them maybe not to find out, this year at least.

Emotions Appear

Moon Conjunct Ascendant

Your feelings are front and center this year, and because you're wearing your heart on your sleeve you can sell yourself so much more effectively. The way you look is the way you feel, which gives you the appearance of total honesty, so anything else you can hide is only to your benefit. The opposite of a rear-view mirror, you appear closer than you are.

Appreciating Acceptance Arises

Venus Sextile Ascendant

Subliminal messages are in tune for you this year, even though neither you nor those around you usually notice the wordless conversation. Because you're putting out friendly signals, you're actually working in a warmer environment that you have created for yourself by doing so. Enjoy the results.

Examining Action Arises

Mars Sextile Ascendant

You'll be picking up a lot of energy and physical support from your friends this year, so don't hesitate to let the cheering section urge you on and even lend a hand in your efforts. The more enthusiasm happening around you, the stronger you'll be and the more work you'll get done as a result.

Examining Career Arises

Jupiter Sextile Ascendant

A positive attitude and a general air of welcoming the new without causing a revolution lets you go farther this year than others who are in a more radical mood. If you take it for granted that there's going to be a good result, each step gets better than the last and you've arrived before you notice you've left.

Appears Spiritual

Neptune Conjunct Ascendant

You've got a natural cloaking device working for you this year, and what other people see in you is as much what they imagine as what's actually there. That lets you play any part you want, except that playing yourself may be the most difficult to pull off. The world's a stage, and you just walked onto it.

Examining Power Arises

Pluto Sextile Ascendant

Support from those around you makes you look like a shoo-in for whatever position you choose to take, which of course makes it happen. It's not an ego thing, so don't take credit – you're just the right person in the right spot, for the moment, and everyone sees that. Enjoy the free ride.

The Midheaven

Your Reputation, Career, Life Path

Truth Management

Midheaven in Sagittarius

You're talked about in truthful but sometimes overly simplistic terms this year. Appreciation and plaudits abound for your more obvious endeavors when your more complex efforts may go right over people's heads. Don't look a gift horse in the mouth, however, and time will bring your subtler side to light soon enough.

Manage Emotional Progress

Moon Square Midheaven

Your emotional concern with personal affairs this year may distract from longer-term career or life-building when they don't all exactly compliment each other, which they won't. It's a matter of playing one off the other so that each benefits and neither suffers, which tends to begin exactly the other way around.

Manage Self Progress

Sun Square Midheaven

Commitments to either home or office may rankle a bit this year, as your inner agenda doesn't always square up with what those demands are requiring of you. You may have to subsume your own ego to the general task or let possible partnerships trail that might have heated up but for commitments you'd better give priority to.

Manage Spiritual Progress

Neptune Square Midheaven

Confusion about yourself and your personal involvements can mislead others about what you're doing and who you are. That can lead to false rumors or incorrect assessments of your value, so an emphasis on spin control this year would be a really good idea. Put your ear to the ground, then correct what's in the air.

The Sun

Your Inner Personality and Style

Adventurer

Sun in 1st House

You can lead with sheer force of personality this year as your inner resources are freer and closer to the surface, ready to be tapped. It's all about self-confidence and even a little me-first that helps get you to the head of the line because you truly believe you belong there. You can sell yourself best by simply being yourself and not letting artificial pretensions or needless negotiations get in the way. That doesn't mean you'll always be right, but it will mean you're much more likely to get the chance to find out this year because you're more up front about who you are and where you want to be.

A New Vision

Moon Conjunct Sun

A new Moon means a year of beginnings, all things old out the door as a new broom sweeps clean. Intensity of turnover describes the feeling of a voyage commencing that may require rearrangements of all sorts. Necessary partings are eclipsed by the optimism of turning your face toward the dawn of a new day.

Authoritative Plans

Sun Sextile Saturn

The past quietly supports the future for you this year, and you'll find that much of who you are is built on what you once were and have rather forgotten about. The labors of the past bear you up without requiring credit or recognition, since they were achieved to enable your efforts now, so get on with those.

The Moon

Your Feelings, Reactions, Emotions

Psychological Support

Moon in Pisces

This year will allow you to take emotional flights of fancy which may stretch both the heart and the imagination to include new feelings and new methods of inner communication. You may allow yourself to become a bit more other-worldly than usual, which you won't regret, as the ordinary boundaries you are used to are themselves not as real as you have come to think. Your practical decisions may take a back seat to motivations that may make you seem a

softie, but maybe it's just the time to be that. Following spiritual pursuits will be a no-brainer, but you may have to be ready to shift back again when the year is over.

Tough Support

Moon in 1st House

You are likely to lead strongly with your emotions this year, and your feelings on any matter at hand are likely to be up front and forcefully stated. This can allow you to sell your point of view in the marketplace or engage in any kind of give-and-take repartee from mere banter to deep heartfelt discussion. Your reaction time will be sharpened in general, but so will your sensitivity and inclinations to take things to heart that loom larger than reality to you. Magnifying the moment makes time so much more intense to you, but that may not be the case with others, so take their temperature, too.

Sublimate Feelings

Moon Sextile Mars

You don't take the time to internally judge your actions this year, so there is a rhythm that's kind of taken for granted. Your eye is on what you do, not how you feel about it, and that allows you greater freedom of movement, without self-censorship. What never occurs to you can't possibly get in your way.

Patience

Moon Sextile Saturn

Editing yourself and your reactions this year comes so naturally that you don't give it a second thought. It's not reticence when you are simply cool at the right moment and don't bat an eye. Remaining unruffled in the face of turbulence comes from keeping an eye on the horizon, so you don't notice it in the first place.

Put Up with Change

Moon Sextile Pluto

Your faith in your ability to steer your course is sufficiently in place this year that you really don't give it much thought. Quiet confidence has other things to attend to than itself. When the Force is with you, you don't need to force things, but just get on to the business at hand and let the subconscious do its work.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Psychological Ideas

Mercury in Pisces

Your thought processes don't have to make sense to work well, and sometimes your off-the-wall hunch is as solid as the next person's sure-fire plan. Even if you can't explain it, you can still go ahead with it if it makes internal sense to you. You can troubleshoot and document it after you've proved it works anyway.

Psychological Ideas

Mercury in 12th House

Shooting your mouth off can get you in trouble this year, primarily because you may give away your plan without knowing it. Better to keep a lid on what you're onto and organize behind the scenes without too much fanfare. Back-door arrangements beat up-front slip-ups across the board.

Critical Insight

Mercury Sextile Uranus

Your path is littered with originality this year, but you may hardly notice just how much so, as every little bright idea seems small and obvious and only together do they come together to make up serious change. Your main intention isn't to be abidingly clever, just uncover what's necessary to get the job done.

Venus

Your Needs, Wants, Desires

Supportive Love

Venus in Taurus

Well-considered and long-sought pleasures are the goal, and if it's really wonderful then it's worth building, saving, and waiting for. That applies to everything from food, to living quarters, to love affairs. Further, it's the simple, more earthy approach that lasts longer, so you don't need frills, just substance.

Supportive Love

Venus in 2nd House

However you go about getting it, what you really want this year is something you can count on, and count up. It's less about getting a good value and more about getting something valuable you can keep. Remember, if it's not worth paying for, it's probably not worth much, and that includes yourself. Keep your prices up.

Embody Love

Venus Trine Mars

What you want and the method by which to get it walk hand in hand this year, and flames desire are a sure engine-starter and burn fuel efficiently. It's also a hallmark of unflagging charm as you're evenly and consistently able to deliver what's wanted and enjoy the process along the way. Good for work and play, both.

Building Blocks

Venus Trine Jupiter

What you want is what you get this year, and you'll find yourself happy with new choices and the increased appetite for life they bring, one after the other. Expanded horizons mean expanded capacity, but watch your waistline doesn't follow suit. Satisfaction, this time, means having happily had just enough, not gulping down more.

Loving Kindness

Venus Sextile Neptune

Small dreams, small satisfaction, together they piggyback into a life panorama of pleasure, happiness, and fulfillment. Incremental joy is a theme for the year, which you may only truly appreciate in retrospect, as the individual memories will be with you to savor in memory for a long time to come.

Building Power

Venus Trine Pluto

The surer you feel about achieving your objectives, the more likely that is just what will happen. That kind of faith in the inevitability of satisfaction is on tap for the year, and the more you lean on it, the farther you will go. When you know it's in the cards, you can play fearlessly and still enjoy the game.

Mars

Your Energy, Life Force, Excitement

Efficiency Drive

Mars in Capricorn

Hard work doesn't mean long hours, but it does mean unflagging focus and a single purpose to get your job done. That approach will float your ambitions and support your success as long as you keep your eye on the ball. Not much room for frills or play, but when it's done you can bank on the launching pad you create.

Community Drive

Mars in 11th House

Forging your circle of friendship, your important connections, the reliable space station that you'll count on to sustain you and take you from the planet to the stars, that's your major energy-burner this year. The ladder between earth and sky is where you're living, so make sure it's sturdy and climbable.

Career Ideas

Mars Conjunct Jupiter

Look for a big energy boost this year, perhaps diluted by so many different new places to put it. Active pursuit of new ambitions and projects is the key, with a youthful feeling suffusing all because it's quite physical at times. It's about not only being enthusiastic, but doing something about it, pushing the envelope.

Discipline Ideas

Mars Conjunct Saturn

There's a lot demanded of your energies this year, and you don't have a lot left over to waste, so when you do something it has to have serious intent. This adds a patina of extra care and caution about where you expend your precious inner resources. Work takes on the quality of necessity, as you ration your fuel to get the job done.

Ideas of Control

Mars Conjunct Pluto

The temptation to break things that don't immediately yield to your touch is strong, and you'll do well to resist it this year unless extreme circumstances arise that require forceful measures. You may feel you have the right of eminent domain over others' right-of-way, but don't run roadblocks unless you can outrun the results.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter **Ambitions, Goals, Possibilities**

Management Career *Jupiter in Capricorn*
 Established principles are in the air this coming year, and expansion by contraction is the mysterious solution to the question "Quo vadis?" A conservative, no-nonsense approach that favors continuing the old to reach the new is your course. Of course, time marches on, even if you're sitting still. If that's your move, that's your decision.

Community Career *Jupiter in 11th House*
 The opportunity for gaining close friends expands this year, perhaps to the point of deciding what close really means. Important new people crowd in, but who will last will be the question. Not the worst of problems, but decisions will have to be made, final choices embraced and brought home.

Skillful Ideas *Jupiter Conjunct Saturn*
 This one-year-in-twenty promises a climate of social and financial change in which new ways of approaching life come up to challenge more traditional beliefs and methods, marking background turmoil and uncertainty as it all sorts out. These are what the Chinese called "interesting times," less predictable and more heroic than most.

Discrimination *Jupiter Sextile Neptune*
 A more realistic and satisfying way to blend dreams, hopes, and expectations by sharing is in the wind, if you are willing to take a deep breath. Actually, a series of shallow breaths describes it better. What once you may have kept to yourself, it is time to exchange with others who have been in the same situation.

Strategies *Jupiter Conjunct Pluto*
 Sometimes innovation and expansion arrive on a gentle breeze, sometimes on a hurricane. This year is likely to see the latter, when progress is not to be resisted or it will overcome you by sheer force. This does not mean you have to get on board of every new brainstorm, but if you see a juggernaut coming, either climb on or get out of the way.

Saturn

Caution, Wariness, Wisdom, Boundaries

Obstacle: Community

Saturn in Aquarius

This year does not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

Obstacle: Community

Saturn in 11th House

Learning the meaning of tried and true may be an important lesson of this year, as you weed out those who are truly close from those who only seemed to be. This may involve some disappointment, but it also is confirming of what will last and you can count on. Some friends, really, aren't.

Objective Research

Saturn Square Uranus

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

Transforming Ideas

Saturn Conjunct Pluto

This year marks a time in the world when conservative ideas and organizations gain their power through force, fear, or covert activities, or by simply steamrolling their opposition. Stay out of the way of this sort of operation, and it will probably have little personal effect, but it puts an air of worry in the social background that things are not as stable as they should be and that something somehow is amiss.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Productivity

Uranus in Taurus

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

Freedom: Productivity

Uranus in 2nd House

Expect surprising ups and downs, out of left field, in the flow of money and resources this year, so any cushion you can provide there will serve you well. Major new discoveries and opportunities are to be found, but you can't depend on them arriving on schedule. Just be ready to snatch the windfall, should it happen.

Neptune **Dreams, Hopes, and Fantasies**

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

Embrace: Life

Neptune in 12th House

It's not what you don't know that will hurt you, it's what you think you do, but don't. That's a theme to carry carefully this year, as your imagination can sweep you like an undercurrent into deeper waters than you think await you. Check out the signs along the shore before you plunge gleefully into the surf.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Community

Pluto in 11th House

Who is and who isn't included in the first tier seating of your life could become an issue. The inclusion of one means the exclusion of another, and that's the stuff over which battles are fought and hearts are broken. You can't love everyone the same, but you can be gentle with the procedures that accompany it.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Sun

Your Inner Personality and Style

A New Vision

Moon Conjunct Sun

A birthday new Moon emphasizes your Sun-sign for the whole year, so you get an extra boost of confidence and self-assuredness for the duration. It's like a double-barreled shot of your own native style up front and center, with ammunition to spare. Just don't be too unsufferable while reveling in it.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Mental Accent

Mercury Conjunct Mercury

Your native mindset is reinforced this year, and you're a step further along in your fundamental approach to thinking and analysis. Essentially, you're revisiting your own mind, re-familiarizing yourself with what's unique about your thought processes and sharpening your wit based on a new plateau of self-awareness.

Uranus

Discovery, Revelations, New Ground

Ideas of Freedom

Mars Conjunct Uranus

Explosive energy at your command needs careful focus to make the most of new discoveries, epiphanies that must move quickly from idea to action without losing their power and vision. It can be too easy to get nervous and crazy from too much heat too quickly applied, so keep a cool head and a steady hand when inspiration strikes.

Neptune

Dreams, Hopes, and Fantasies

Visions

Mars Conjunct Neptune

Burning idealism and dreams on fire thrill and inspire this year, but you'll need to focus your efforts with a dose of realism or you will risk losing the free boost you're receiving. You can outmaneuver anyone by the clever tricks at your command, but you'll have to have a reason to have done it in the end.

Featured Natal Positions (continuation)

Independent Ideas

Jupiter Conjunct Uranus

You are at a high peak of self-discovery, and may experience revelations that are quite startling to you. The temptation will be to break with all else and follow the new path, but don't burn your bridges behind you. There are many paths for each person. The truth lies in all, not just in one.

Neptune

Dreams, Hopes, and Fantasies

Inspiration

Jupiter Conjunct Neptune

This marks a time of considerable inner emotional and spiritual inspiration, which will rejuvenate and redevelop your personal ideals. At the inner level this is tops, but in the outer world it may lead you to invest your energies in ill-thought-out schemes. Invest your heart, but watch your pocketbook.

Midheaven

Manage Practical Spirituality

Neptune Conjunct Midheaven

Wild tales and phantasmagorias are heard about you abroad, so learn to manipulate your reputation rather than depending upon it reflecting in any way your real situation. You can fly many flags and never betray yourself, but at the same time you can inadvertently be misidentified, so be ready to defuse.

Uranus

Discovery, Revelations, New Ground

Penetrating Ideas

Pluto Conjunct Uranus

You are going through a period of restructuring your learning processes during which inspiration will be rather short and new concepts a struggle to get a handle on until you learn to view their structure from an entirely different angle. The Muse will remain mute until you learn her new language.

Neptune

Insights to Unity

Pluto Conjunct Neptune

What ought to be certainly isn't, and you have a strong feeling of that right now, fueled by events that seem to block your finest dreams. It may be more a matter of your perception than you believe, but only time will tell - nevertheless, re-examine your "would's" and "ought's".

Midheaven

Your Reputation, Career, Life Path

Insights to Unity

Ascendant Conjunct Midheaven

You look like your resume this year, and people will treat you like you are who you said you were, whatever version of you actually shows up in the room. If you've been fibbing about your achievements, you'll be sorry now, but if you've been truthful, all will be duly impressed and delighted to meet the you they've heard all about.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Mar 24, 2020 to Mar 24, 2021

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Emotions Appear

Ascendant on Moon (PSR-SR)

Here's a day or so when feelings suddenly come to the fore, when you just can't help yourself and let out your emotions or even push them forward as they seem the only way to really address the current issues. A lot of people may be running out of steam right now, but those who are keeping up establish a pace that just won't quit. Conservation of energy and using only just what you need to get the job done is the lesson to be learned, and operations begun now will be long-term marathon performers. Banked fires burn hot.

A New Vision

Moon enters Aries (PSR-SR)

A new, more aggressive feeling is in the wind, and although you might have started out the year willing to edge your way along, you're becoming more inclined to swift reactions, even hasty ones in order to get yourself across. There's a certain urgency that wasn't there before, but don't let it make you crazy.

Mystical Ideas

Mercury Conjunct Neptune (TR-SR)

A mist upon the mind makes ordinary clarity just history for the time being, but the numinous clarity of dreams is at your beck and call. If you can envision it, you can express it, so keep a journal by your bedside. Don't expect things to make sense right away, but in retrospect it will shine like a firefly in the dark.

Midheaven on Neptune (PSR-NA)

There are illusions in the air about what you do and what you think can happen for you, some of which may actually be true. Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
