# Introduction

## **Your Birthday, Your Year**

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## **A Special Event**

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Communicator

*Ascendant in Gemini*

Communication is your sword and shield this year, and there is nothing you can't talk your way into or out of if you're willing to invest the time to discuss it. Discussion and action are two different things, however, and there comes a point when words aren't enough and it's time to put ideas to the test. Even then, you'll be able to refine your efforts on the fly as you pick up new information and use it to guide your ongoing operation. It's all about keeping the lines open and involving input from others, which then becomes your own.

### You Appear

*Sun Conjunct Ascendant*

This is a very up-front, in-the-lead, personal kind of year for you, in which what they see is what you are and you're quite aware of having to live your image. There's a lot of extra confidence to add to the mix, and there's a physical boost involved that supercharges the feeling. Time to make your move.

### Thoughts Arise

*Mercury Conjunct Ascendant*

You may find that what you say is obvious to people this year as your mere presence speaks volumes by itself. You are up front and out in front with your ideas, and what they see is what they get, as you make yourself perfectly clear. Saying it in person will definitely be better than in writing or over the phone.

### Conserving Career Arises

*Jupiter Trine Ascendant*

Positive developments accrue to you by your ability to let your creative urge spur you along and not be held back by ordinary convention. You don't have to think outside the box, just expand it a bit and it won't even seem like pushing the envelope. When it's time to grow, you just step aside and make room for it.

# The Foundation for Your Year (continuation)

## Spiritual Objectivity Arises

*Neptune Square Ascendant*

People may not see in you what you think they do this year, so you may be playing the wrong part in the wrong costume without even knowing it. That's easy enough to fix – just ask someone, keep tabs on regular feedback to fine-tune the image you're trying to pull off from moment to moment, as you go along.

## The Midheaven

## Your Reputation, Career, Life Path

## Manage Acceptance

*Midheaven in Pisces*

What people say about you this year may be totally different than what is actually going on with you, almost as if you're flying a flag of a different nation. That known, it's good to check people's expectations before you invest in satisfying them, so no one comes off surprised or startled by reality.

## Manage Career Overview

*Jupiter Conjunct Midheaven*

You can overdo your own publicity this year, so go ahead and rent that giant billboard and a full-page ad to go with it. The best is being said about you, so there's no harm in adding to a snowball effect that includes the whole world. Just make sure you can live up to all the compliments, or most of them, anyway.

## The Sun

## Your Inner Personality and Style

## Acceptance

*Sun in 12th House*

This year you may find your light is hidden undercover more than you may expect or want, for reasons that may be outside your knowledge. It's a good time to play a role behind the scenes, as you'll instinctually know what's going on there and can pull the appropriate strings. Trying to be too out-in-front could get you blindsided, however, so a cautious approach is in order. You may particularly identify with those in distress, having been there yourself, but take care you don't rush onto thin ice yourself to make the rescue. Inner reflection is a major factor this year, as that is where your heart is.

## Teaching Ideas

*Sun Conjunct Mercury*

Your plans and designs this year are closely tied up with your ego, which can serve you well personally but may also have you too close to the subject to be objective about what you're preparing. A little advice from outside wouldn't hurt before you make it all your own exclusive dog and pony show.

## Building Success

*Sun Trine Jupiter*

Steady, expansive growth is a key to your personality this year, as you build on each new development to enable the next to be even larger and better. It's an ever-increasing spiral that's the trend for the year, so make the most of the flow before the added planetary dimension passes.

## Building Discipline

*Sun Trine Saturn*

Support comes from traditional quarters this year, so feel free to lean on previous experience and contacts to shore you up and sustain you when the new stuff fails to produce to expectation. No point in reinventing the wheel when you've got a reliable set ready to roll, proven, tried and true.

## Progress in Peace

*Sun Square Neptune*

Inner confusion is a stumbling block this year, as when you're not sure about your own inner truths it's hard to determine what outside reality is. It's easy to get lured off the path and into the bushes by beckoning promises that seem to offer a better way, but you may be best putting on blinders

## The Moon

## Your Feelings, Reactions, Emotions

## Family Support

*Moon in Cancer*

This year may be characterized by your taking things more personally to heart than before at various levels. In some ways that will mean extra caring, being more deeply moved emotionally, and feeling closer bonding than before. It can also mean being more easily slighted by words or actions that weren't intended to harm at all, so you may want to check to see if you really are hurt before declaring yourself to be wounded. Throughout, the inclination to throw your heart into the situation and spontaneously dive deeper into your relationships is heightened, along with the protective urges that go along with it.

## Fertility

*Moon in 2nd House*

The natural feeling of the year is to come to terms with concrete issues, and you may feel a bit more wound up in your bank balance than you might ordinarily. It's not that financial crisis is afoot, simply that you notice the importance of what you have and what you have to do to keep it a little more strongly. That can lead to wise revision of your spending habits and more careful consideration of your important possessions, but it can also lead to impulse buying or falling for emotional appeals to get your money. Invest compassionately, but wisely.

## Motivational Insight

*Moon Conjunct Mars*

Strong expression of feeling are an earmark of the year, which can range through every level of inner passion, from joy, to love, to grief, to anger. Reacting too powerfully too quickly can be a problem, as it can upset everybody's composure, including your own, so keep your emotions on a leash, at least until you know there's appropriate room to express them.

# The Foundation for Your Year (continuation)

## Embody Inspiration

*Moon Trine Neptune*

Intuitive reactions will get you everywhere this year, and rolling with a hunch will lead to another even better one, and so on. Don't try to explain it too much or you'll lose the beat, but when you're in tune, you'll know it. Play it like you feel it and let the rest happen by itself.

## The Experience

*Moon Opposite Pluto*

Confrontations and power plays can put a damper on your emotions this year, as feelings get blocked for reasons that may not be really clear but seem to have definite cause. It's a passing thing, so don't act too quickly to blow away the opposition, as you may find that to be totally inappropriate and a waste of inner resources.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury

## Your Mind and Intellect, Thoughts and Plans, Communication

### Communications

*Mercury in Gemini*

Your head can cover all the bases this year, as long as you can put your plans into words and down on paper. Discuss it, network, get everybody's opinion and then put your own on top of the mix to cap the lot. As long as there's a plan you can stand back and look at, analyze, you'll be on top of the issues.

### Psychological Ideas

*Mercury in 12th House*

Shooting your mouth off can get you in trouble this year, primarily because you may give away your plan without knowing it. Better to keep a lid on what you're onto and organize behind the scenes without too much fanfare. Back-door arrangements beat up-front slip-ups across the board.

### Mind Training

*Mercury Trine Saturn*

Your thinking this year is unusually logical and orderly, which allows you to lay down some well-conceived foundations for projects in preparation. Unhurried solutions are usually the most lasting, and it takes a steady hand to put on the perfect finishing touches as well. From beginning to end, a deliberate pace makes for a robust resolution.

### Successful Words

*Mercury Square Neptune*

Mental confusion and spiraling uncertainty are challenges to meet and overcome this year, as your thinking process is subject to blurring by influences that might not ordinarily derail you. Part of that may lie in your demanding more clarity than is available and refusing to continue without it. Instead, press on, regardless.

## Venus

## Your Needs, Wants, Desires

### Love of Home & Family

*Venus in Cancer*

Desire is sweetened when the prize is yours and yours alone, and you'll be most satisfied when you can nourish your small pleasures into big ones without too much sharing going on. That doesn't mean you're not in the mood to give - quite the opposite - but it's important to be in control so it properly comes to flower.

### Direct Love

*Venus in 1st House*

Looks are important, and this year you're leading with them, so check the mirror every now and then. Use charm and friendly persuasion to represent yourself, because that's the real you, not a put-on. You get what you want by simply being up front about it and asking, as if it were your natural expectation.

### Slings and Arrows

*Venus Sextile Uranus*

Tastes change in small increments this year, and although you may not notice it along the way, you'll have discovered a whole new world of satisfactions you didn't even consider before you began. Like fireflies in summer, first there's one little flash, then another, and before you know it your field's on fire.

## Mars

## Your Energy, Life Force, Excitement

### Creative Drive

*Mars in Leo*

Enthusiasm and generosity ensoul your energies, and the more you let yourself free to enact your creative side, the more will get done. When it seems like play, that's when you're doing your best work, so don't let yourself get boxed in or sat upon to repeat old efforts. Find your muse, then let her rip.

### Urge for Growth

*Mars in 2nd House*

Hard work promises tangible rewards this year, and certainly that's where you'll be directing a lot of your energy. Just remember that throwing good money after bad can really slow you down, so before you throw yourself into the task, make sure the previous push has got you going in the right direction.

### In Control

*Mars Opposite Pluto*

Your efforts periodically come up against a brick wall this year, and roadblocks can tire you out by forcing you to redirect your energies to get around them. Resist the tendency to rev your engine and smash through, as your insurance may not cover the consequences. Wait for the path to clear or try a clever detour instead.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

**Jupiter** **Ambitions, Goals, Possibilities**

**Career Helping** *Jupiter in Pisces*  
 You are likely to see people going out on a hunch and staking their gains on intuitive calls that may easily founder or, if on the mark, race to a new level. It's all about listening to that still, small voice - and about quieting the noise enough to hear it. If you're a hard-nosed realist, this could drive you crazy - but it's in the air, so why not share?

**Spiritual Career** *Jupiter in 9th House*  
 Higher education is the key this year, though that may not mean the kind that tuition pays for. Bigger concepts, wider territories, greater travels await your urge to adventure, so leave yourself some time and space for expansion. You may not be able to do it all, but why not take a big bite?

**Saturn** **Caution, Wariness, Wisdom, Boundaries**

**Obstacle: Community** *Saturn in Aquarius*  
 This year does not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

**Obstacle: Spiritual** *Saturn in 9th House*  
 Sometimes life is conceptually a lot simpler than it seems when reading the news. This year may illuminate, as you come to focus on the important concepts by which life should be lived and get rid of some of the speculative nonsense. Perhaps the good old ways have something to recommend them, after all.

## Objective Research

*Saturn Square Uranus*

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

**Uranus** **Discovery, Revelations, New Ground**

**Freedom: Productivity**

*Uranus in Taurus*

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

**Freedom: Community**

*Uranus in 11th House*

Insight from friends means insight into friendship for you this year, and that may not always come in expected ways. What seems a shock at first may turn out to be the gates to discovery to get to better know and understand who your closest supporters really are – and how close you are to them.

**Neptune** **Dreams, Hopes, and Fantasies**

**Embrace: Life**

*Neptune in Pisces*

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

## Embrace: Practicality

*Neptune in 10th House*

Dreams of success are often founded upon the illusions of others, and your success can be advanced just that way this year. What you've really done and what people think you have are two different things. This year some attention to the latter will get you everywhere, as long as you've actually done the former.

## Change Blocked

*Neptune Sextile Pluto*

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

## Pluto

## Necessity and Fate, Power, What Must Be

## Control: Practicality

*Pluto in Capricorn*

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

## Control: Business

*Pluto in 8th House*

The power of mystery is seeded in the memory of loss, followed by the loss of the memory itself. What you have thrown away can come back to haunt you this year – or rather, come to control you because you'd forgotten you did it. When the old returns, return it its power over you, and it will relinquish it in turn.

# Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

## Venus

### Your Needs, Wants, Desires

#### Insight Into Feelings

*Moon Conjunct Venus*

You're extremely attuned to what you want, and sometimes desire is so strong you can taste it this year. You don't have to fumble around for an excuse or a way of phrasing it, you just know it the moment you see it and reach out to grab it. The question will be, how available is it and does someone else want it, too.

## Sun

### Your Inner Personality and Style

#### Teaching Ideas

*Mercury Conjunct Sun*

Your ability to say who you are is particularly heightened this year, and you can lay out your goods for all to see and understand simply by delineating a word-picture where you might have had to rely on a personal appearance before. This allows you to sell yourself in multiple places at the same time.

## Mars

### Your Energy, Life Force, Excitement

#### Ideas to Act On

*Venus Conjunct Mars*

Action is what satisfies this year, and when in doubt, don't just sit there, do something. Whatever you choose to do has an extra layer of perceived satisfaction attached to it, so even if you're a little rough around the edges, go ahead anyway. It's not the details you'll be judged on, but your inner fire.

## Venus

### Your Needs, Wants, Desires

#### Ideas to Act On

*Mars Conjunct Venus*

Implementing your desires is everything this year, and you'll be on fire to do just that, as your pot comes to a boil and often as not froths over the edge of fulfillment. Steamy passions and heated intentions no longer bubble under, so be prepared to live up to your fantasies when they present themselves first-hand.

## Saturn

## Caution, Wariness, Wisdom, Boundaries

### Insights

*Uranus Conjunct Saturn*

This is a time when most of your limitations, and in many cases your foundations as well, will get blown clean away, allowing you to write your own ticket on a clean slate if you have the energy and fortitude to do so. Abandon the past and rapidly mold the future and you will have built a new world.

## Ascendant

## Your Looks, Your Presentation

### Insights

*Midheaven Conjunct Ascendant*

Although the masses may not crowd around waving pictures of you on sticks, there's a background feeling like they're doing just that. Expect your picture to be passed around and what you look like to be talked about more than you might imagine. What they see is who you are, or that is what they believe.

## Sun

## Your Inner Personality and Style

### You Appear

*Ascendant Conjunct Sun*

Your personality, the inner you, is going to seem a lot more like the outer you this year, which gives you a lot of inner strength and consistency, because what they see is what they get, easier for everybody. It also makes you a little bit too obvious now and then, so be willing to let up on the throttle now and again.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Jun 13, 2021 to Jun 13, 2022

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

**Actions Arise**

*Ascendant on Mars (PSR-NA)*

The urge to aggressively get things done may rather suddenly present itself, and since it's brief, you'd do well to hitch your wagon to the energy and get twice as much work done. Just mind you don't push too hard too fast or you could break something, especially when your dealing with delicate situations.

**Manage Practical Spirituality**

*Midheaven on Neptune (PSR-SR)*

There are illusions in the air about what you do and what you think can happen for you, some of which may actually be true. Don't take what's said about you to be gospel, as it may just be fantasy - someone else's or even your own. Hope is in the air, but you still need to put breakfast on the table unless you can wait for lunch.

**Sunday  
July  
04**  
01:33 am

**Values Are Apparent**

*Ascendant on Venus (PSR-SR)*

You look so good today you could kiss your mirror, but let someone else do that for you instead. When you feel especially charming and desirable, that's what you project, so this is the perfect day or so to get out there and woo who and what you want, because they're going to want a piece of you, too.

**Love of the Future**

*Sun Conjunct Venus (TR-SR)*

Ego compounding desire can make this moment hot but nearsighted at the same time. In the passion of the moment all are more likely looking out for number one than for the general good, and the possibility of missing the long-range win is real. Seek what you want, but remember you'll still have needs tomorrow.

**Emotions Appear**

*Ascendant on Moon (PSR-SR)*

Here's a day or so when feelings suddenly come to the fore, when you just can't help yourself and let out your emotions or even push them forward as they seem the only way to really address the current issues. Strong reactions beget strong reactions, so expect it to be intense for a while until the waters settle.

**Ideas for Effort**

*Sun Conjunct Mars (TR-SR)*

High physical energy is pushed by extra motivation and a lot can be accomplished as long as burnout is avoided. Push it to the edge and then back off before pulling a muscle. Similarly, don't let the person behind you urge you beyond your limits. The power available should be harvested, then invested.

**Ideas to Express**

*Mercury Conjunct Mars (TR-SR)*

Ideas catch fire and the mind races as your thinking cap jams into fifth gear. A heady time, indeed, but you'll need to keep pace with the rest of the world, which is experiencing the same thing. Anything you choose to do with your interior software will keep this high pace in times to come, so strike while the iron is hot.

Strange things surface about you which may be sudden recognition of your unexpectedly inventive side or just rumors about how offbeat you are. It's likely to be a revelation you'll want to hear about, however, so keep your ear to the ground. Forgive blunt remarks, as they're helpful in the end.

**Manage Problems**

*Midheaven on Saturn (PSR-NA)*

Expect some criticism in the wind, especially about your job or work efforts, but don't react with resentment unless it's untrue. If you've got a flaw or two (and you do), better it should be known and admitted to than blatantly denied. On the other hand, this is a time when your reliable side is particularly noticed.

What you've said finally reaches its audience and they didn't forget how clever you really are. Although this year starts with and keeps a fairly self-sufficient feeling, you can't be on top of yourself all the time and you're beginning to see where it's safe and fun to let go. You don't have to lose all control to have fun, and what's private is private, but play is essential to your very heartbeat.

**Problems Appear**

Slowdowns are the order of the day, brought on by extra work, added commitments, less firepower. This, too, will pass in a few days, but you have to go through it, not around it. A mist upon the mind makes ordinary clarity just history for the time being, but the numinous clarity of dreams is at your beck and call. If you can envision it, you can express it, so keep a journal by your bedside. Don't expect things to make sense right away, but in retrospect it will shine like a firefly in the dark.

A lot of people may be running out of steam right now, but those who are keeping up establish a pace that just won't quit. Conservation of energy and using only just what you need to get the job done is the lesson to be learned, and operations begun now will be long-term marathon performers. Banked fires burn hot.

Big appetites and a large bite out of life depict the day, and that means dig right in there but don't overdo, whatever need you are satisfying. Spectacular beauty will characterize launches in love or money, but it might be well to take overweening charm with a barrel of salt. Nevertheless, go ahead and revel in it.

**Career Ideas**

*Mars Conjunct Jupiter (TR-SR)*

Boundless energy and enthusiasm can overwhelm, like a herd of runners all attempting the hundred-yard dash. You may want to think about not joining that herd but siphoning off some of the energy around you in a more reasoned way. Overweening eagerness lacks staying power, but ardor can be a thrill when channeled.

**Tuesday  
April  
26**

**Inspiration**

*Venus Conjunct Neptune (TR-SR)*

Mystery holds much appeal and the more difficult it is to put a finger on, the more people are going to want it. Dreams, fantasies, fiction, and the generally ineffable are all good sellers, whoever is buying. A time to be gloriously unspecific and totally undemanding of the suddenly gossamer fabric of reality.

*Moon enters 3rd House (PSR-SR)*

Although you may have started off the year with more tangible goals in mind, better ideas are coming along that make you realize that what's in your head may be worth more than what's in your hand. It's not you alone that's changed your mind, there's just a lot more information flowing that clues you in.

Camouflaged movement can make the world a slippery and uncertain stage, but magic tricks can both entertain and educate. Time for that backfield zigzag that fools them all, scores the winning touchdown.

**Thoughts Arise**

*Ascendant on Mercury (PSR-NA)*

For a moment you can't believe you just heard yourself say that - solutions come pouring out of your mouth and you're sought out (or just stumbled upon) to provide them out of the blue. Yes, you really are cleverer than you thought, and it's a couple of days to make the most of your own articulation.

**Manage Problems**

*Midheaven on Saturn (PSR-SR)*

Expect some criticism in the wind, especially about your job or work efforts, but don't react with resentment unless it's untrue. If you've got a flaw or two (and you do), better it should be known and admitted to than blatantly denied. On the other hand, this is a time when your reliable side is particularly noticed.

**Teaching Ideas**

*Sun Conjunct Mercury (TR-SR)*

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

# Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
