Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Community Action

Ascendant in Aquarius

You look like you can be all things to all people this year, and you probably can, but you may have to step beyond that to be one thing to one person. It will be easy to parallel process and multitask, but real concentration on something important will require shutting down some systems in order to get it done. Leading edge efforts come naturally, however, as you're attuned to multiple information streams and people notice it, so you'll be the first person to get and give out the news. It's a multimedia event, and you're at the center.

Emotional Stengthening Arises

Moon Trine Ascendant

Your feelings go hand in hand with your appearance this year, so your reactions to any situation make you look good, and when you're looking good, your timing gets even better. That doesn't mean you're an open book, but when you're around, it always seems to others like there's a page-turner in the room.

Intellectual Experience Arises

Mercury Opposite Ascendant

This is a good year for paying close attention to what others have to say, especially close partners, and making their message your own. Similarly, you may find a lot of people are speaking your part and embracing your ideas, which is fine as long as they're not stealing them outright. Patent before publishing.

Sudden Progress Arises

Uranus Square Ascendant

Unexpected events can throw off your physical timing this year, so take extra care where you step lest you trip, literally. Things appearing out of nowhere seem to startle and disrupt, though only temporarily, but still putting a nervous edge on situations that might normally flow more easily.

The Midheaven

Your Reputation, Career, Life Path

Truth Management

Midheaven in Sagittarius

You're talked about in truthful but sometimes overly simplistic terms this year. Appreciation and plaudits abound for your more obvious endeavors when your more complex efforts may go right over people's heads. Don't look a gift horse in the mouth, however, and time will bring your subtler side to light soon enough.

Manage Emotional Experience

Moon Opposite Midheaven

Your feelings are centered around yourself and your home ground this year, which may distract from or channel some attention off career matters. Where there's a trade, you'll go for what supports you and where your loyalties lie, not self-promotion per se. So let yourself share the spotlight, there's room.

Manage Self and Others

Sun Square Midheaven

Commitments to either home or office may rankle a bit this year, as your inner agenda doesn't always square up with what those demands are requiring of you. You may have to subsume your own ego to the general task or let possible partnerships trail that might have heated up but for commitments you'd better give priority to.

Manage Accepting the Physical

Saturn Sextile Midheaven

Checks and balances may seem to hold you back this year when in fact they're holding you up. Hidden supports that have been around and taken for granted can become your mainstays, although you may not recognize it at the time. A lot is about good habits keeping you out of troubles that you don't notice you've missed.

The Sun

Your Inner Personality and Style

Social Graces

Sun in 7th House

You're in the mood to dance this year, and when you stretch your hand out to swing your partner, you're simply obeying your own inner rhythms. The essence of cooperation is in personally identifying with another, and that window opens particularly wide this year, whoever else may be involved. It's not that you're out to find a particular partner, it's that you're in a condition to understand one, which makes you yourself a particularly attractive proposition. By simply being yourself, you invite coupling, whether it's romantic or simply creative teamwork in life in general. To know another is to know yourself.

The Foundation for Your Year (continuation)

Teaching Ideas

Sun Conjunct Mercury

Your plans and designs this year are closely tied up with your ego, which can serve you well personally but may also have you too close to the subject to be objective about what you're preparing. A little advice from outside wouldn't hurt before you make it all your own exclusive dog and pony show.

Success by Effort

Sun Trine Mars

You're in for a steady ride as far as your fuel supply goes this year, with enough energy to burn to get the job done but without wasting any, either. When it's time to put your shoulder to the wheel, you'll know it and do it without a problem, and as with all exercise, you'll get stronger the more you perform.

The Moon

Your Feelings, Reactions, Emotions

Support Network

Moon in Gemini

This year brings an inner ability to change how you feel and be sensitive to the emotional winds of change in others, as well. You'll be especially able to put your reactions into words instead of firing off without thinking or taking unintended slight sullenly to heart without comment. If you can say it, you can change it, and that goes right down to the most critical matters of the heart. Some may not agree, especially those who would hide their feelings to begin with, and you yourself may find it unusual to be so seemingly glib, but it's a learning experience to be treasured, especially when later the right words may be hard to come by.

Family Support

Moon in 4th House

Thoughts turn toward home this year, or rather feelings do, and along with them the perennial question: is home where the heart is, or where the house is? There are deeper levels of your inner foundations that imbue a house to make it a home, and as long as you're in touch with them, it can be anywhere you hang your hat. A lot more time than usual this year will be spent on considering and acting on just those sort of inner issues, which seem to rise of themselves for reevaluation despite whatever other efforts may seem to be occupying the front burner. The real nature of comfort and inner security is worth a second look.

Building Discipline

Moon Trine Saturn

Caution comes naturally to you this year, and a cool hand on the wheel sees you steadily through situations that might otherwise have riled you past the level of wise action. By not taking the first thing to come to hand, you enable opportunities to develop until you get the most for the least inner expenditure.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Creative Ideas

Mercury in Leo

Big ideas with lots of scope and ambition characterize your thinking processes this year, and there may not be the time or inclination to pick up all the stitches. That's what delegating authority is about - just make sure you do it. Your mind is like a championship stadium field, and there's a big game going on.

Social Communication

Mercury in 7th House

Words exchanged with friends and lovers take a special place this year, so when you say something special, make sure you've done a job to remember. Thoughtful advice is called that because you put a lot of thought into it, so put on your thinking cap where partners are concerned. They want to hear from you.

Words to Action

Mercury Trine Mars

Head and hand work well together this year as you're mentally on top of what you're doing, neither one step ahead nor one step behind. There's no doubt about what you're going to do next, as each effort comes with a plan to lead it onto the following development. Seamless operation is the intention, and the achievement.

Successful

Mercury Square Uranus

Changing your mind too often this year can lead to a lot of wasted time, even though the apparent need for course readjustment is constantly cropping up. In the end, you may do better to ignore a lot of the veering winds and motor on straight ahead. Distractions are a dime a dozen, so a pair of blinders could come in handy.

Venus

Your Needs, Wants, Desires

Love of Home & Family

Venus in Cancer

Desire is sweetened when the prize is yours and yours alone, and you'll be most satisfied when you can nourish your small pleasures into big ones without too much sharing going on. That doesn't mean you're not in the mood to give - quite the opposite - but it's important to be in control so it properly comes to flower.

Love to Express

Venus in 5th House

To have fun, you have to really want to have a good time, and this year is a total go for that. Play is not just recreation, it's an art form, one you can spend some time developing for the moment and never look behind you. It's those backward glances that spoil the party, across history, so eyes ahead, dig in.

Mars

Your Energy, Life Force, Excitement

Direct Action

Mars in Aries

Quick deeds, strong actions inspire you with an urgency that says get the job done first. You'll do that, for sure, but just check to see that it's a job well done and that the follow-through is attended to as well. Avoid the temptation to hit hard and move on unless you know that's exactly the maneuver required.

Urge for Growth

Mars in 2nd House

Hard work promises tangible rewards this year, and certainly that's where you'll be directing a lot of your energy. Just remember that throwing good money after bad can really slow you down, so before you throw yourself into the task, make sure the previous push has got you going in the right direction.

Positive Signs

Mars Square Jupiter

There's a tendency to overdo or underdo what needs to be done, especially when it's something new you haven't tried before. Like a batter facing a new pitcher, you have to swing and miss several times until you get a sense of where to connect with the ball. It's a waste of energy, but necessary to get into tune.

Discipline

Mars Square Saturn

You can get winded at the most unexpected times, but there is a rhythm to it which you'll discover. By constantly checking yourself, you use up energy and prevent the follow-through that comes from an unbridled swing. Don't worry so much if you're going to hit the mark, or you won't. Just take aim and shoot.

Achieving

Mars Square Pluto

Breakage could be a problem coming from trying too hard to force the situation in a way that things just don't fit. There's an urgency to get the job done that may cause you to overlook that you're not doing it right, forcing a square peg into a round hole. The right tool for the right task is essential – check to see that's what you're using.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter **Ambitions, Goals, Possibilities**

Management Career *Jupiter in Capricorn*
 Established principles are in the air this coming year, and expansion by contraction is the mysterious solution to the question "Quo vadis?" A conservative, no-nonsense approach that favors continuing the old to reach the new is your course. Of course, time marches on, even if you're sitting still. If that's your move, that's your decision.

Career Helping *Jupiter in 12th House*
 Biting off more than you can chew and the resulting life indigestion is this year's risk, but forewarned is forearmed. You have lots of opportunities behind closed doors, but only if you keep them that way. Taking credit for everything will get you reward for nothing, so be discriminating where you expand.

Discrimination *Jupiter Sextile Neptune*
 A more realistic and satisfying way to blend dreams, hopes, and expectations by sharing is in the wind, if you are willing to take a deep breath. Actually, a series of shallow breaths describes it better. What once you may have kept to yourself, it is time to exchange with others who have been in the same situation.

Strategies *Jupiter Conjunct Pluto*
 Sometimes innovation and expansion arrive on a gentle breeze, sometimes on a hurricane. This year is likely to see the latter, when progress is not to be resisted or it will overcome you by sheer force. This does not mean you have to get on board of every new brainstorm, but if you see a juggernaut coming, either climb on or get out of the way.

Saturn

Caution, Wariness, Wisdom, Boundaries

Obstacle: Practicality

Saturn in Capricorn

Although work may be its own reward, the work ethic is not a guarantee of success. This year reveals that, as efficient and judicious effort is rewarded while those who have been only repeating operations based on previous success will find their edifices relentlessly crumble. The past reaches the future only through change, don't forget it.

Obstacle: Sacrifice

Saturn in 12th House

You have to say no sometimes, but this is a year to think twice before you do, as limiting yourself at just the wrong moment can be the one thing that can get you into trouble. Criticism in general should be held at a minimum, even (particularly) if you think no one is privy, as it may come back to haunt you.

Transforming Ideas

Saturn Conjunct Pluto

This year marks a time in the world when conservative ideas and organizations gain their power through force, fear, or covert activities, or by simply steamrolling their opposition. Stay out of the way of this sort of operation, and it will probably have little personal effect, but it puts an air of worry in the social background that things are not as stable as they should be and that something somehow is amiss.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus Discovery, Revelations, New Ground

Freedom: Productivity

Uranus in Taurus

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

Freedom: Ideas

Uranus in 3rd House

Sudden changes of mind because of unexpected new communication lines opening up keep you on your toes. A lot of them may emanate from you, so you shouldn't really be so surprised. By insisting on doing it a new a better way, the flow gets interrupted, but for the better, once you've adjusted to the new approach.

Neptune Dreams, Hopes, and Fantasies

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

Release: Action

Neptune in 1st House

You can be as smooth an operator as you like this year, but that can work for or against you. You can wear the mask, but take it off and others may think you're still wearing one. It's the actor's dilemma. Use it to fool people into doing what is right, not just what you want, and it won't backfire on you.

Change Blocked

Neptune Sextile Pluto

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Life

Pluto in 12th House

Kids shouldn't play with guns, because they go off when least expected. So it is with adults, and when you think you're safe with the equalizer in your palm, it could turn out you've brought a pistol to a tank battle. Smug delusions of power are the danger this year, with undoing from unexpected quarters if you get to feeling too sure wielding your advantage.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Sun

Your Inner Personality and Style

Teaching Ideas

Mercury Conjunct Sun

Your ability to say who you are is particularly heightened this year, and you can lay out your goods for all to see and understand simply by delineating a word-picture where you might have had to rely on a personal appearance before. This allows you to sell yourself in multiple places at the same time.

Venus

Your Needs, Wants, Desires

Accent on Values

Venus Conjunct Venus

You take another step in understanding and living out your own desires this year, as if re-familiarizing yourself with what you want and your style of going about getting it. That means reformulating and refining goals to build on what's already there and bring a greater level of consistency and insistence that brings success that's uniquely you.

Ascendant

Your Looks, Your Presentation

Values Are Apparent

Venus Conjunct Ascendant

You look simply marvelous this year, yes you do. Simply marvelous 'and who cares if much of it's in the eye of the beholder. Your appearance has a bit of a candy coating that makes you glisten attractively to the hungry eye, so you needn't sugar-coat your approach to have it entirely sweet enough already.

Midheaven

Your Reputation, Career, Life Path

Manage Practical Spirituality

Neptune Conjunct Midheaven

Wild tales and phantasmagorias are heard about you abroad, so learn to manipulate your reputation rather than depending upon it reflecting in any way your real situation. You can fly many flags and never betray yourself, but at the same time you can inadvertently be misidentified, so be ready to defuse.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Aug 12, 2020 to Aug 12, 2021

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

There are illusions in the air about what you do and what you think can happen for you, some of which may actually be true. Overview

Midheaven on Midheaven (PSR-SR)

It's about the time your birthday again, so check out your next solar return!

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
